

Established for over 25 years we pride ourselves on producing the finest quality handmade wall panels for our clients. Our new range of exclusive leather panels offer endless design opportunities to the highest standards. We offer a specific range of panels alongside a bespoke design service to ensure our client's vision become a reality. Exclusive, innovative and unique.

Every Margan® panel is created by our team in our award winning studio cut into the Chiltern Hills. Each panel can be custom made to any size using exquisite leather, exotic skins or contemporary designer fabrics.

Panels are supplied with a unique fixing system which gives an invisible, flush fit to all our designs.

Your Margan® Wall System is made from FSC timber and is treated to Crib 5. Any stitching detail can be delivered in matching or contrasting finish to maximise the impact of your interior design.

We carefully select all the leather by hand to ensure the highest quality is always met. The appearance of your Margan® wall panels can be maintained by the use of a soft brush on your vacuum or by wiping over with a damp cloth. Harsh chemicals and alcohol should not be used on your beautiful panels.

Margan® is a registered Trade Mark and we hold all the design rights to our wall panels.
